

PCC # C02621

High Power Combiner Protector

UHF coaxial surge protector for high power multi-transmitter combined applications. Industry's best RF performance. Fully weatherized, low throughput energy. Maintenance free and multi strike capability.

Technical Specifications:

Application:	UHF	Insertion Loss (dB):	0.1
Unit Imp. (Ohms)	50Ω	Freq. (MHz):	300 – 700
Mounting:	Bulkhead or Flange	Protected Side Conn:	N-Female
RF Power (Watts):	750 Watts	Surge Side Conn:	N-Female
VSWR:	1.1:1	Weatherized:	Yes
